

Broadcast media ownership is already far too concentrated, do not allow any further consolidation of the media. The Iraq war showed that media conglomerates were quite willing and able to censor the news and present only one viewpoint. The corporate/commercial stations in ROchester were openly pro-war and gave negligible coverage to other opinions, with one sponsoring a rally. For democracy to function we need an educated and fully informed populace, but with most people getting their news from broadcast news 6-7 pm each night, that already isn't happening. FOR THE SAKE OF DEMOCRACY, DON'T ALLOW FURTHER CONSOLIDATION OF THE MEDIA.
